

## 追查迫害法輪功國際組織（追查國際）

### World Organization to Investigate the Persecution of Falun Gong (WOIPFG)

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society.

#### Investigation Recording 2019-150

**Date:** November 9, 2019 (+86-20-87755766)

**Subject(s):** Doctor, Kidney Transplant, the First Affiliated Hospital, Sun Yat-sen University, Guangzhou

#### Summary

1. If lucky, it takes one or two weeks to wait for the surgery, but if unlucky, it takes two or several months.
2. With the two divisions combined, there should be more than 400 cases performed in a year.

#### Translation

Operator: Hello, hello! ...

Investigator: Hello, hello! Is this the First Affiliated Hospital of Sun Yat-sen University?

Operator: Right, yes!

Investigator: Hello, please connect me to...or give me the number for Kidney Transplant. Can you connect me to Kidney Transplant or the Doctors' Office of Kidney Transplant? Thank you.

Operator: Did you say Kidney Transplant?

Investigator: Yes, Kidney Transplant.

Operator: Please wait a moment, let me connect you over.

.....

Dr. Wang: Hello?

Investigator: Hello! Is this the First Affiliated Hospital of Sun Yat-sen University?

Dr. Wang: Ah, yes.

Investigator: Is this the Kidney Transplant Doctors' Office?

Dr. Wang: Yes, yes.

Investigator: Hello, one of my family members wants to go to your hospital for a kidney transplant...

Dr. Wang: Okay.

Investigator: Oh, so right now, do we need to bring over his files, or are there any procedures to follow?

Dr. Wang: Ah, you come over here. We have a kidney transplant consulting office here, which can always help get you registered or something of this nature when you get there. We have a consulting office here...then we have doctors on duty. Our doctors here won't take charge of things initially in consultation, but will do so later after you're registered. You'll have to come first, so we can first look at your tissue typing and so on. Regarding all that... here in our consulting office we have specialized...there will be a specialized staff to address your questions or concerns then.

Investigator: I'd say that if with good luck, then the tissue typing is just...

Dr. Wang: Good luck could just mean...good luck has something to do with whether or not a bed is available. Haven't you queued in other hospitals too? Well, how did they answer your questions?

Investigator: Yes, we have. Well, they too... as they said, if lucky, it takes one or two weeks to wait for the surgery, but if unlucky, it takes two to several months.

Dr. Wang: Right, right.

Investigator: That's right, well, nowadays at your hospital in a year...as I've heard, usually the more cases are done, the better the techniques become. Well, how many cases can you do at your hospital in a year?

Dr. Wang: With our two divisions combined, there should be more than 400 cases in a year.

Investigator: More than 400 cases a year...you do more than 400 cases annually. So, 400 cases certainly mean that your techniques are pretty good. Well, who is your chief physician? Who is he? Can I go to him directly?

Dr. Wang: Ah, you can go register for an appointment. Then you just...then you just go register to make an appointment with our director, and there will always be a kidney organ allocated for you later.

Investigator: What is your director's surname?

Dr. Wang: It's Wang.

Investigator: And his full name?

Dr. Wang: It's Wang...Wang...Wang Changxi.

Investigator: Ah, Director Wang Changxi, okay, is he the chief physician in Kidney Transplant?

Dr. Wang: Yes, yes, he is.

Investigator: Is the bed supply tight if everything else is okay? That is, will there be a bed available when he's admitted into your hospital?

Dr. Wang: You can rest assured. If he's to have the surgery, if we have a kidney organ available for him, he will just come here directly for hospitalization. Prior to all that, he won't be allowed to be admitted into our hospital.

Investigator: We'll go ask for Director Wang When we get there, okay? Thank you, alright, thank you!
