**Translation**

Investigator: Hello? Is this President Cai?

Doctor Lu Baosai: No, I'm not.

Investigator: Ah, as my friend told me, this is for Cai...President Cai Wenqing of the Second Hospital of Hebei Medical University. I'm in an urgent situation that I need your help with, as my husband is now...

Doctor Lu Baosai: That's not me. You got the wrong phone number.

Investigator: Are you...are you a doctor of the Second Hospital of Hebei Medical University?

Doctor Lu Baosai: Yes.

Investigator: Oh, I made a mistake. Are you a surgeon for kidney transplantation?

Doctor Lu Baosai: Yes.

Investigator: I definitely got it right then. I need to talk to you. My husband is now in the People's Hospital, and wants to have a kidney transplant. My classmate referred this place to me.

Doctor Lu Baosai: Where are you calling from?

Investigator: I'm in Zhejiang now, calling from Zhejiang. But my husband is doing his business in Shijiazhuang, and has got a problem with his kidney. I'm in Zhejiang now.

Doctor Lu Baosai: But how come it shows a phone number from abroad?

Investigator: Oh, it's not. I'm calling *via* the internet. So sometimes it shows Shenzhen, Guangzhou, or any other place.

Doctor Lu Baosai: Oh, oh.

Investigator: Yes, I'd like to first consult with you. If the surgery can be done at your hospital, I will make the arrangements here, since I'm very busy with my family business.

Doctor Lu Baosai: Ah, ah, ah, who referred us to you?

Investigator: May I ask for your last name?

Doctor Lu Baosai: My last name is Lu. Who referred us to you?

Investigator: One of my classmates.

Doctor Lu Baosai: Oh, oh, please go on.

Investigator: From your experience, approximately how long would be the wait time for the surgery for a patient of blood type A?

Doctor Lu Baosai: It would be within half a year, ah, about half a year.

Investigator: Such a long time!

Doctor Lu Baosai: That'd not be long at all.

Investigator: According to my classmate's friend, he got his transplant done very quickly in your hospital. He said that it took about half (a month)...two weeks to get his done then.

Doctor Lu Baosai: Ah, that is possible. But that's hard to say.

Investigator: In the fastest case, how soon can it be done?

Doctor Lu Baosai: It's hard to say!

Investigator: Oh, in that case, I will go check out other hospitals and choose whichever hospital offers the shortest wait time. His doctor told me that the sooner he gets it done, the better. My husband's already been ...

Doctor Lu Baosai: Okay. Please go check out other hospitals. Okay.

Investigator: I will go to other hospitals to inquire about it. If I can't find any other place...if the wait time is just as long elsewhere, I will come back.

Doctor Lu Baosai: Okay.

Investigator: Well, how many organ transplant operations can you do in a year?

Doctor Lu Baosai: We don't...

Investigator: Ah, how many can you do in a year?

Doctor Lu Baosai: We can do several dozens of cases in a year.

Investigator: Oh, that's good. I'll keep looking, but if I can't find any suitable or better place elsewhere...I will come back and ask for your help.

Doctor Lu Baosai: Okay. That's fine.

Investigator: Oh, oh, oh.

Doctor Lu Baosai: Please come back to find me when you need to.

Investigator: Okay, okay, okay. Thank you. Thank you!

Doctor Lu Baosai: Okay.

Investigator: Thanks very much. May I ask you another question, do you know how much it would cost? Do you know the price?

Doctor Lu Baosai: Let's talk about that later, okay?

Investigator: Oh, we'll get to that later. Oh, how soon can the patient get discharged from the hospital after the operation? I need to arrange the time.

Doctor Lu Baosai: What?

Investigator: How soon can the patient get discharged from the hospital after the operation is done successfully?

Doctor Lu Baosai: Two weeks.

Investigator: Oh, okay, okay, okay. I got it. Thank you, Doctor.

Doctor Lu Baosai: Okay, that's it.

Investigator: Okay. Bye.
