

追查迫害法輪功國際組織（追查國際）

World Organization to Investigate the Persecution of Falun Gong (WOIPFG)

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society.

Investigation Recording 2020-084

Date: May 28, 2020 (+86-771-2870303)

Subject(s): Doctor, Kidney Transplant, Chinese People's Liberation Army No. 923 Hospital (formerly Nanning Number 303 Hospital)

Summary

1. At the Second Affiliated Hospital, they do very, very large quantity, and they seem to do 30 to 40 operations in a month.
2. I suggest that you get it done there, at the Second Affiliated Hospital of Guangxi Medical University in Xixiangtang.
3. Investigator: Sun Xuyong does quite a lot at the Second Affiliated Hospital?
4. Doctor: Yes. They do very, very large quantity there.
5. Here we do one or two operations a month. Sometimes we do one operation in a few months.
6. The Second Affiliated Hospital is not a brand new one, and has always been there. Only their Transplant Program was established by people coming from our place.

Translation

Investigator: Hi, hello!

Nurse: Hello!

Investigator: Ah, is this Chinese People's Liberation Army No. 923 Hospital?

Nurse: Yes.

Investigator: Ah, well, our family has a patient.

Nurse: You need to get a transplant done, right?

Investigator: Right, a transplant, a kidney one.

Nurse: Let me transfer you to the kidney transplantation over there.

Investigator: Great. Thank you.

(A kidney transplant doctor picked up the phone)

Doctor: Hi, hi, hello!

Investigator: Hi, hello. Is this Kidney Transplant?

Doctor: Oh, no, well, ah. This is Transplant, yes, Transplant Program. Sorry about that, sorry.

Investigator: Ah, it's like this. I am a relative of a patient. Well, before the pandemic, he wanted to get a kidney transplant done. He went through the tissue typing. But later, he put it off due to the pandemic. And now, he wants to get it done.

Doctor: Okay. Have you, have you come and get the tissue typing done here?

Investigator: No. We did not get it done there at your place, but at another hospital.

Doctor: Oh. Where is your home? Where are you from?

Investigator: He is in Guilin, in Quanzhou.

Doctor: Oh, yeah. Fine. But to be honest, here at our place, well, as you know as well, we do few operations here. At the second affiliated hospital, they do especially a lot there. It seems that they do 30 to 40 operations a month.

Investigator: Which one does a lot there?

Doctor: Yes, I suggest that you get the tissue typing done directly there.

Investigator: Which hospital, which one did you say?

Doctor: The Second Affiliated Hospital of Guangxin Medical University in Xixiangtang.

Investigator: Ah, that's the one, right?

Doctor: Yes. Director Sun there, he used to be a director here. Later he went there.

Investigator: Ah, so Director Sun, what is his full name?

Doctor: It's Sun, Sun Xuyong!

Investigator: Ah, it's Sun Xuyong?

Doctor: Right!

调查员：那行。那他在二附做的挺多呀？

医 生：是的是的，那边特别特别的多。

Investigator: Fine. So he does a lot at the Second Affiliated Hospital there?

Doctor: Yes, yes. They do very, very large quantity over there.

Investigator: Ah, regarding the waiting list, sometimes they must have a lot of patients on

their waiting list too, as they do a lot.

Doctor: We have even more patients waiting here. We have lots of patients waiting here, but with few operations to do. They just got started, just more than half a year ago. There, perhaps many people do not know about them. So, it's a little bit better there. They opened business not long ago, so usually it's not as crowded as here.

Investigator: Ah, well, the Second Affiliated Hospital, is it a brand new one?

Doctor: The hospital is not new, and has always been there. I was talking about its Transplant Program. It was some of us who went and got it started there.

Investigator: Well, Doctor, I have another question for you. In the fastest case, can it be done in a month?

Doctor: Regarding that, (patients) need to get in the queue in the national system. I don't know. I have no idea.

Investigator: So that means, your place...well, the Second Affiliated Hospital is not a military one, but you are. So, military and civilian hospitals work together. Is that the case?

Doctor: I am not very sure. About that, that stuff, we....

Investigator: Oh?

Doctor: How should I know? It can be done here at our place. But over here, let me tell you clearly, we do extremely few operations, one or two in a month, sometimes one operation in a few months.

Investigator: Ah.

Doctor: Ah. The wait time will be very long. There are very few opportunities here, aren't there?

Investigator: Yeah, okay, thank you.

Doctor: Ah, no problem, no problem, ah.

Investigator: Ah, thank you. Bye!
