

Investigation Respondent: Liu Yu, surgeon with Liver Transplant, Beijing Chaoyang Hospital

Investigation Date: July 16, 2020 (+86- 13911062788)

Summary

1. Liu Yu: I've left the General Hospital of the Armed Police Force. Come to see me at Beijing Chaoyang Hospital.
2. We haven't stopped during the pandemic. We have been doing it all along. We did one yesterday, and had four cases done in three days.
3. Question: If things go well, can it be done in one month?
Answer: It should be. I think it should be.
4. The fee is around 800,000 rmb yuan.

Investigation Recording

Investigator: Is this doctor Liu?

Liu Yu: Hello.

Investigator: Hello, how are you? Is this doctor Liu of General Hospital of the Armed Police Force?

Liu Yu: I've left the General Hospital of the Armed Police Force.

Investigator: Oh.

Liu Yu: What's up? Who is this?

Investigator: Hey, my friend recommended that I see you. I have a family member who needs a liver transplant. I was wondering if many people are on the waiting list now, right?

Liu Yu: Ah...it's no problem. What is the condition of this patient?

Investigator: He has an alcoholic liver, advanced cirrhosis.

Liu Yu: Oh, where is the patient now?

Investigator: He is in Miyun.

Liu Yu: In Miyun, isn't he?

Investigator: Right, right.

Liu Yu: Who recommended me to you? Who told you to see me?

Investigator: I have a friend. A relative of his family had it done a couple of years ago, and he said it was done at your place.

Liu Yu: Ah, ah.

Investigator: He told me to come to you and get your help. That is what he said.

Liu Yu: Ah, do you know the blood type?

Investigator: He is type B.

Liu Yu: Type B, right?

Investigator: Uh.

Liu Yu: You do it this way, you come to the hospital as soon as possible. Can you come over here tomorrow morning?

Investigator: Huh, tomorrow morning?

Liu Yu: Miyun is ...Miyun is a bit far. But can you...can you come over here tomorrow morning?

Investigator: Then I will...he's my brother-in-law. Let me discuss it with my sister. If that works, the patient doesn't have to come, does he? It will be easier if he doesn't have to come.

Liu Yu: The patient doesn't have to come for now.

Investigator: Uh.

Liu Yu: He doesn't have to come for now. But you've got to bring that...all of his examination materials.

Investigator: Uh.

Liu Yu: Right. Then you come to Beijing Chaoyang Hospital, it's at Dongdaqiao.

Investigator: Uh.

Liu Yu: At Dongdaqiao.

Investigator: Uh, Chaoyang Hospital.

Liu Yu: At Dongdaqiao, Chaoyang District.

Investigator: Uh.

Liu Yu: Bring the patient's ID in case it is needed, that is, if it's decided, that is, if the family member really wants to do it...since there is the pandemic now, there is this Covid-19 pandemic, hospital admitting is very complicated, the procedure for it is very complicated.

Investigator: Uh.

Liu Yu: I may need to immediately arrange his...for instance, immediately process hospitalization, and its related examination procedures. In that case, registration is needed. You use his ID...with his ID, you can make registration.

Investigator: Uh.

Liu Yu: His medical insurance card also works, you may also use his medical insurance card. Is he under Beijing medical insurance?

Investigator: Uh, medical insurance, right, right.

Liu Yu: Right, then you can also bring his medical insurance card.

Investigator: Uh.

Liu Yu: Then you just bring his medical insurance card.

Investigator: Uh, does he need to take the Covid19 PCR test?

Liu Yu: Ah...it is not needed tomorrow. There are a couple of scenarios. Let me get a general idea first.

Investigator: Uh, that will work. Doctor Liu, may I ask if we sign up on the waiting list and things go well, can it be done within one month?

Liu Yu: It should be, more or less. I think it should be, more or less.

Investigator: Uh, it should be, more or less. Well, that works. So there is no delay during the pandemic, right? If the patient comes during the pandemic, the concern is, no one does it anymore. But you guys this hospital is still doing it, nothing is on pause during the pandemic, right?

Liu Yu: Right, we have been doing it all along. We did one yesterday, we had four cases done in three days.

Investigator: Oh, four cases in there days. Ah, only if I'd come earlier!

Liu Yu: That's right.

Investigator: Ah, okay then. Doctor Liu, do you perform the surgery yourself?

Liu Yu: Huh?

Investigator: Do you perform it yourself?

Liu Yu: Right, right, right, I perform it.

Investigator: How much will it cost, that is, all...all charges included?

Liu Yu: Oh, it'll be about 800,000 yuan, 800,000 yuan, give and take.

Investigator: Uh, that includes the liver source and other fees, right?

Liu Yu: Right, right.

Investigator: Uh, around 800,000 yuan.

Liu Yu: The surgery part is around 800, 000 yuan, because the post-surgery expenses are covered by Beijing medical insurance.

Investigator: Uh, right, right, right.

Liu Yu: The expenses afterwards can be reimbursed, right, but no reimbursement for the surgery part.

Investigator: How could I come to see you? Just go to that...that Chaoyang Hospital at Dongdaqiao?

Liu Yu: Oh, you just call me...you just give me a call, and that will do.

Investigator: Oh, just call this cell phone, right? Let me discuss this later with my brother-in-law, with my sister.

Liu Yu: Ah, ah.

Investigator: Right, and see when she has time, or what she wants, alright?

Liu Yu: Right.

Investigator: Ah, sounds good. Thank you, Doctor Liu. Thanks, and good bye.

Liu Yu: Sure, sure.

Investigator: Ah, all right. Good bye.

Liu Yu: all right, good bye.
