

## Investigation Respondent: Dr. Guo Chenxu, Department of Urology, Datong City Third People's Hospital

Investigation Date: September 22, 2020 (+86-0352-5556292)

### Summary:

1. The cellphone number for organ coordinator Guo Chenxu: 15536837362.
2. It will be doctors specializing in kidney transplants, rather than doctors with the Urology Department, that will take care of it. There are special doctors taking care of it.
3. Question: I don't mind spending money; I just want a good kidney source for a quick transplant.  
Answer: If there is a suitable kidney source, if the matching is right, the transplant can be done immediately.  
Question: Can I find a judicial organ donor who doesn't smoke or drink?  
Answer: Currently, it's not possible. Leave me your phone number.  
Question: I just want a Qi Gong practitioner's kidney source. If you are sure you can find this type of kidney source, I am willing to pay up to two million RMB yuan.  
Answer: I'll mention this to Director Wei. If there's a suitable kidney source, we'll contact you immediately, okay?
4. We are all involved in kidney transplants. I am not the director; Director Wei is in charge.

### Investigation Recording

Investigator: Hi! Hello!

Nurse: Hi!

Investigator: Is this Datong City Third People's Hospital?

Nurse: Yes, the Urology Department of the Third Hospital.

Investigator: Is the chief doctor of the ward available?

Nurse: Um, which doctor are you looking for?

Investigator: It's the director of our Nephrology Department, any director will do.

Nurse: Um, any director...Director Li is out for clinic today, it's Wednesday today, his day at the clinic.

Investigator: Well, let me briefly consult you first. This is my situation: my younger brother was recently diagnosed with uremia, and the hospital suggested we have a kidney transplant. So I wanted to know if Datong Third People's Hospital can perform kidney transplants, and if it can, I'd like to have it done at your hospital.

Nurse: Yes, we can. We've been doing it recently. If there is a match, we can proceed. We are doing it. But you were asking, when you come to do it...let me find you a relevant doctor. It's not a urology doctor; there are special doctors in the dialysis room that handles blood purification. They will take care of it.

Investigator: Alright.

Nurse: Please wait a moment; let me call the doctor who specializes in the field.

Investigator: Okay, okay, thanks.

Nurse: I'll call the doctor in charge of kidney transplants because it's not a urology doctor who handles this; there's a special doctor that takes care of this.

Nurse: Ah, please wait a moment; let me see if he's available.

Investigator: Okay, thanks.

Nurse: One moment; don't hang up.

Investigator: Okay.

Doctor: Hello!

Investigator: Hello, how should address you? May I have your last name?

Doctor: Hello, my last name is Guo.

Investigator: Ah, Director Guo, then I'll call you Director Guo.

Doctor: My name is Guo.

Investigator: Director Guo, let me tell you my situation.

Doctor: Ah, I am not a director.

Investigator: Let me tell you my situation. My younger brother is from Datong. The hospital asked us to have a kidney transplant.

Doctor: Oh, where...where was he diagnosed?

Investigator: He was diagnosed at a local hospital.

Doctor: Where was he diagnosed?

Investigator: He is currently in the hospital. I have a few questions for you. Since I am in Shenzhen, and I am doing business here, so I no longer care how much we need spend. I just want to find the best kidney source. So I want to ask you about how to proceed about this. If we come to your hospital, will there be a bed immediately, or there will immediately an arrangement for us...how long will it take to get a kidney transplant for us?

Doctor: He needs to have matching done. If there is a type match, the transplant can be done immediately.

Investigator: So...

Doctor: If there is a suitable kidney source, if it's a matching type, it can be done right away.

Investigator: Oh, but Dr. Guo, is it possible to do it this way? That is, about this suitable kidney source, I want to find a high-quality kidney source. That is to say, I don't mind how much money I have to spend, because he is so young.

Doctor: About this...about this...currently it's Shanxi Province that centrally controls its assignment.

Investigator: The assignment is centrally controlled? But my former classmate told me that a few years ago, his uncle...

Doctor: Yes, yes.

Investigator: His uncle had a transplant at your hospital, he said they found a kidney source that didn't smoke or drink, and it was from the judicial system. I now want...

Doctor: This...there's no way to find this type now. There's no way now, there's no way.

Investigator: Ah, since which year...since which year was it no longer possible?

Doctor: Later...later...later you give me your phone number.

Investigator: Ah, okay.

Doctor: Leave me your phone number.

Investigator: Okay. I was asking you since which year it was no longer possible to have such kidney sources?

Doctor: This kidney source, it's...

Investigator: Hello, Director Guo.

Doctor: Give me your phone number, give me your phone number.

Investigator: Alright, alright, I'll give you my number later, I'll give it to you later. I want to ask you a few more questions now, or I'll forget, as I don't know much about medical matters.

Doctor: Hmm hmm hmm hmm...

Investigator: How many kidney transplants can your hospital perform in a year?

Doctor: Last year, we did six... um, five.

Investigator: Did you continue during the pandemic this year? Could transplants be performed during the pandemic?

Doctor: Right, right, right, during the pandemic... it stopped for a few months.

Investigator: Oh...

Doctor: We've started doing it in past few months.

Doctor: Typically hospitalization would cost between 100,000 RMB yuan and 150,000 RMB yuan, hospitalization will need 100,000 RMB yuan and 150,000 RMB yuan.

Investigator: Will there be a bed if we go in now?

Doctor: Yes, there will. But you need to have kidney source. When you have a kidney source, it can be done immediately; without a kidney source, it can't.

Investigator: Dr. Guo, can I put it this way? It doesn't matter how much money needed, I...I ask you, I just want to go through you, can you find me a...that is to say, a kidney source from judicial system?

Doctor: You leave me your phone number first, and later there's this Director Wei, a Director Wei who's in charge of this. I will mention this to Director Wei. Give me your phone number now.

Investigator: If you are sure you can find me this kidney source, I am telling you, I...I am willing pay two million RMB yuan. Why? I just...I just have this one younger brother, so I no longer want to look around for it anymore.

Doctor: Ah, I understand...

Investigator: I'll give you my phone number, and you give me yours as well.

Doctor: Okay, you take down my cellphone number, it's 155...

Investigator: Ah, 155

Doctor: You take down my cellphone number now.

Investigator: 155 and then what? Go ahead.

Doctor: 15536...3683.

Investigator: 3683, and then what?

Doctor: 7362

Investigator: 7362, let me repeat that.

Doctor: 7362.

Investigator: 15536837362. Your name is Guo what?

Doctor: Right.

Investigator: Your full name?

Doctor: Guo Chenxu.

Investigator: Excuse me?

Doctor: Guo Chenxu, Guo Chenxu.

Investigator: Which Chen is it?

Doctor: It's the chen in xingchen(star).

Investigator: Okay.

Doctor: Alright. And later I will mention this to Director Wei, since Director Wei is mainly in charge. Director Wei and I are in the same team. We are both doing kidney transplant. Director Wei is...he is the one that's mainly in charge.

Investigator: Ah, he's mainly in charge.

Doctor: Later I will talk to Director Wei about this.

Investigator: Okay, so that...

Doctor: Right, right, right.

Investigator: Director Guo, I want to talk to you a bit more. Do you have...do you have---my former classmate told me...he has connections in the hospital, so he told me that they found the kidney source from someone who practiced Falun Gong. His uncle has been alive for seven or eight years now.

Doctor: Ah, that was in the past. Now it's uncertain. Now it's uncertain.

Investigator: Can you find me such kidney source now? I want the kidney source from someone who practices Qi Gong too. Is it possible?

Doctor: Ah, okay. Later...later I will mention this to Director Wei. If there is appropriate kidney source, we will call you right away, okay?

Investigator: When can you give me information on that? Are you able to find such kidney source? If you decide...if later when I call you, you tell me you've discussed it with Director Wei and you are able to find such a source, I will immediately go to your hospital.

Doctor: You...you give me your phone number first, I will...I haven't see Director yet. When I see him, I will talk to him. Because this...for the preparation of this kidney transplant, there are lots of things that need to be done. It's not like...it's not like a single issue of finding kidney source.

Investigator: Ah, okay.

Doctor: Your...your thought about it is too simple.

Investigator: Okay,  
okay

Doctor: Okay, tomorrow I will...I know what you mean.  
You want a good kidney source. Okay, okay.

Investigator: Okay.

Doctor: Leave me your phone number, and I'll inform Director Wei. Alright.

Investigator: Okay, okay.

Doctor: Go ahead.

Investigator: it's 155...

Director: 155

Investigator: 2206

Doctor: 2206

Investigator: 0055...

Doctor: 00, and then what?

Investigator: 0055, 55.

Doctor: 00, 0055...

Investigator: That's right.

Doctor: Ah, okay, okay, okay. What's your last name?

Investigator: My last name is He.

Doctor: He? Okay.

Investigator: Good, good, I'll call you Dr. Guo.

Doctor: Ah, okay

Investigator: Good. Are you the attending surgeon or... part of the team...

Doctor: Right, right, right.

Investigator: Attending surgeon, right?

Doctor: I'm with Director Wei, yes, yes.

Investigator: Okay, okay. Thank you, thank you very much!

Doctor: Yeah.
