Investigation Recording

Investigator: Hello! Is this Professor Zhang Yuhong with Shanxi Provincial People's Hospital? I am the one who called you a couple of days ago, and we had a bad connection due to signal issue, my name is Zhao.

Zhang Yuhong: Oh, how come your call came from the US at one time, and Singapore at another?

Investigator: I made the call using the Internet because it is cheaper. My child helped me to set it up, I don't know it. Dr. Zhang, I would like to ask, if everything goes well, can our number on the wait list be called within a month, can it be done within a month?

Zhang Yuhong: It's hard to say.

Investigator: Director Zhang, I just want to tell you, can you ensure the quality? This is most important. We don't care about money at all. Quality must be ensured...

Zhang Yuhong: Ensure what?

Investigator: The quality.

Zhang Yuhong: **The quality of the donor liver?**

Investigator: Right, right.

Zhang Yuhong: Well, we, we will ensure it for you!

Investigator: Right, we want a young (donor), because my friend said he had done it before, and we also checked it online~

Zhang Yuhong: There are young (donors). The younger the donor is, the smaller the circle is. The younger (the donor is), the longer you have to wait. For example, if there are donors ranging up to 100 years old, and you limit (the donor) to under 10 years old, the ratio will come down, right?

Investigator: Because our (patient) is young, only twenty-nine years old.

Zhang Yuhong: Let's do it this way. You come over and we talk face to face. Don't talk to me on the phone. Come over to the hospital if you don't mind.

Investigator: OK.

Zhang Yuhong: Bring the data here and tell me in person if you have any requirements.

Investigator: Okay, okay, Director Zhang, I will look for you when I get there, and I won't go to others. This is what I think, I just want the kind (of donor) that doesn't smoke or drink, okay? I'll just see you, I won't go looking for anyone else. Yes, I want the kind (of donor) that doesn't smoke or drink.

Zhang Yuhong: Okay, let's talk in person, and let's make an appointment for us to meet.

Investigator: Okay. Director Zhang, it's like this, yes, I made an appointment with a hospital, but they said they didn't dare to give me any guarantee. If (you can) guarantee it, I would simply not consider other (hospitals) because it would be too much anxiety. **I just want (a donor that doesn't) smoke or drink, but practices Falun Gong. I am willing to pay any amount for it, it doesn't matter whether it's one million RMB yuan or two million RMB yuan.** And that's in addition to surgery fee.

Zhang Yuhong: **Don't say this for now. Don't say it now. Let's talk about it when we meet.** You get everything ready, and I'll see what happens, OK?

Investigator: Oh, oh, that's okay. What I mean is, **just find me a Falun Gong liver (donor) as soon as possible, then I won't make any more calls, it took me too much energy and time. If you could ensure the quality, I will...**

Zhang Yuhong: **Pretty much so, all of these questions of yours, I can answer them. I'll answer all of them for you, okay?**

Investigator: Weren't you affected by the pandemic this year? Surgeries were being done during the pandemic, right? There was no interruption, right?

Zhang Yuhong: The pandemic is over now!

Investigator: So surgeries were being done during the pandemic, OK. So how many cases has our hospital done this year?

Zhang Yuhong: Huh?

Investigator: How many cases has our hospital done this year? Is it the most in our province?

Zhang Yuhong: **A lot. There were eleven cases done this year, exactly eleven.**

Investigator: Is our hospital the best in our province?

Zhang Yuhong: It's good, I dare not say that I am the best. Anyway, there are only two hospitals in the province.

Both are good, you can ask both (hospitals) for information.

Investigator: OK, OK. Yes, I told them too, but, OK, if you guarantee it to me anyway, the quality of the liver source is the biggest thing, OK? If you have a good liver source, if you ...

Zhang Yuhong: **Let's not talk about this on the phone. I'll explain it to you in detail when you come, okay.**

Investigator: OK, I know what you mean. It's not convenient to say it on the phone, right? Then there's another thing, say...

Zhang Yuhong: **It's inconvenient.** It's a long story and **involves a lot of risks, so it's definitely not convenient to say it over the phone.**

Investigator: Yes, yes, that's okay, then what about the kind...
