

## Investigation Respondent: Nurse with Kidney Transplant Ward of Chenzhou City First People's Hospital

**Investigation Date:** October 19, 2020 (+86 735-2343050)

### Summary

1. Nowadays there are many people in need of kidney transplant surgeries. We sometimes perform up to eight transplants a month—yes, eight transplants each month! [L] [SEP]
2. Generally, there are two surgeries per month. On average, there are usually two to four surgeries per month. [L] [SEP]
3. Dr. Xu and Dr. Gong are the only doctors who perform kidney transplants. [L] [SEP]
4. We have a special team to manage kidney sources. [L] [SEP]

### Investigation Recording

Investigator: Hello?

Nurse: Yes.

Investigator: Can you hear me now?

Nurse: Yes, I can.

Investigator: Good, thanks. Many thanks!

Nurse: En.

Investigator: I'd like to bring a patient to your kidney department for a kidney transplant.

Nurse: You want information?

Investigator: Right, right.

Nurse: About Outpatient clinic service. Are you asking which transplant doctor will be at the clinic at what time?

Investigator: Yes, yes, that's right.

Nurse: Alright, let me check.

Investigator: Thanks.

Nurse: The doctor will be on duty on October 21st. He'll be available all day.

Investigator: Oh, October 21st. May I also ask if there are many people in need of kidney transplant surgery now?

Nurse: Yes, a lot. We sometimes...the most we can reach are up to eight surgeries a month, eight surgeries a month!

Investigator: Eight surgeries a month?

Nurse: And, generally, there are two surgeries per month. On average, there are usually two to four surgeries per month.

Investigator: Besides Dr. Xu leading a team, are there any other teams?

Nurse: Yes, Dr. Gong. They are the only two doctors, only two doctors, there's also Doctor Gong.

Investigator: Oh.

Nurse: We have a special team for this.

Investigator: About the doctor who directly manages the kidney source, do you know which doctor is the contact person?

Nurse: That I don't know. They're the only two doctors in charge of contact and research. They handle these things, and we don't know much else. They specifically take care of these matters.

Investigator: Okay, got it.

Nurse: Because they have special people to take care of these things.

Investigator: Alright, thank you very much, I appreciate it!
