Investigation Recording

Nurse: Hello!

Investigator: Could you connect me to the Transplant Department?

Nurse: Hello! Transplant Department.

Investigator: Hi, is this the First Affiliated Hospital of Kunming Medical College? You are the Transplant Department, aren't you?

Nurse: Yes.

Investigator: How are you? One of my family members needs to do a liver transplant.

Nurse: Oh, just a second. You can bring the patient and the patient's medical records over on a regular working day.

Investigator: May I ask, are you a doctor or a nurse?

Nurse: We're nurses here. And there's a specific teacher who's in charge of transplantation.

Investigator: Could you tell me which director is in charge?

Nurse: Director? You'll find out when you come here. Because there are several doctors handling it. And about this...since they are in different teams, so you will know when you come.

Investigator: They have different teams, is that what you mean?

Nurse: There's no fixed director. You'll know when you come, because there are many patients in need of transplants.

Investigator: Since you have many patients, how long does one have to wait in line?

Nurse: You'll have to come and see for yourself, since transplants are being performed the past couple of days.

Investigator: Surgeries are being done the past couple of days, then how many surgeries have been done?

Nurse: This...there are several of them. It varies depending on the day.

追查迫害法轮功国际组织

World Organization to Investigate the Persecution of Falun Gong

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society

Investigator: That is, there are surgeries for patients every week, right?

Nurse: First, you have to see a doctor, and then a schedule is arranged.

Investigator: Then may I ask, is it affected by the pandemic?

Nurse: You mean the transplant?

Investigator: Yes.

Nurse: Currently it's not affected by the pandemic, unless your own condition doesn't allow it.

Investigator: Then I want to know if there are many people waiting in line now?

Nurse: About that, I don't know the specific details. Because from the beginning until now we've never ever counted them. These are all done by doctors.

Investigator: Then I'll call again during the day.

Nurse: So you can come directly for consultation tomorrow.

Investigator: Before we hang up, may I have the doctor's name? The name shouldn't be a secret, right?
