

## Investigation Respondent: Doctor, Liver Transplant, Nanfang Hospital, Southern Medical University

Investigation Date: February 14, 2022 (+86- 20-61641114)

### Summary

1. You need to get into the waiting database and wait there.
2. There are quite many people waiting in line.
3. Doctors such as Xu Jian and Yu Lixin are still here.
4. Question: How many cases (of transplant) can be done a year? Are there more than 100?  
Answer: Well, that's ...  
Question: Over 200?  
Answer: Uh. Yes, yes, yes.  
Question: There are as many as 200 cases, right?  
Answer: Well. No. There are not that many.  
Question: Well. Over 100 cases? Ah, that's not bad.  
Answer: Ah, yes.
5. You can register...register...well, to see Director Xu. Currently Director Xu Jian is the director of our department.
6. Question: So Yu Lixin, Fu Shaojie are also good?  
Answer: Well. Right. Right... they are all good.

### Investigation Recording

Investigator: It's Nanfang Hospital of Southern Medical University, isn't it?

Nurse: Yes. That's right.

Investigator: This is our situation. I would like to get in touch with your hospital because a family member of mine got Uremia. The doctor suggested a kidney transplant as soon as possible. I have been calling all hospitals to see how many people are waiting in line for transplant in each hospital. If a certain hospital has few people waiting in line, we will go to that hospital for kidney transplant. May I ask... I would like to ask your hospital...are there many people waiting in line?

Nurse: You are...in your case, you need to get into the waiting database and wait there, that is...

Investigator: Ah.

Nurse: Have you done the typing?

Investigator: Typing... That has been done. The examination has been done and we have the materials.

Nurse: Even so, the patient still needs to get into the waiting database and wait there.

Investigator: Okay. Approximately how long will he need to wait ?

Nurse: Well, there's no definitive time. If there is an appropriate...an appropriate kidney supply, we will call to let you know.

Investigator: And we also need to take the materials and get into the line, right?

Nurse: Ah, yes, yes. That's correct.

Investigator: Okay. I see.

Nurse: Yeah.

Investigator: Eh, are there many patients waiting in line now?

Nurse: Well, actually there are quite many. If you would like to know the accurate information, it is better you come to inquire.

Investigator: Okay. That's right. We need to learn more. Now I just would like to make sure, if it is certain that your hospital can do the transplant, we can wait. Then, we will just get into the line.

Nurse: Yeah. Yeah. That's right.

Investigator: Then I would like to...

Nurse: Ah, our hospital can do it.

Investigator: Oh, then may I ask, Xu Jian and Doctor Yu Lixin are still there, aren't they?

Nurse: Ah, yes, yes.

Investigator: Oh, so they do it, right?

Nurse: Ah, yes.

Investigator: Eh, the family member is concerned about something, that is, finding one that has good skills. I said I would ask about that. If he has done many cases, he should have better skills, right? So, how many cases can he do a year? How many a month?

Nurse: Well. That's not certain.

Investigator: Not certain.

Nurse: Right.

Investigator: How many cases can be done a year? Over 100?

Nurse: Ah, this too...

Investigator: 200?

Nurse: Well. Yes. Yes. There should be.

Investigator: There could be 200?

Nurse: Well. There aren't that many. There aren't that many.

Investigator: Ah, over 100 cases. That's not bad.

Nurse: Well. Yes.

Investigator: Then your skills should be good. Then we would use your hospital. We will, um, wait in line at your hospital. Okay, may I ask one more question, and that is, how much money do we need to prepare?

Nurse: As for that...you'd better ask that question when you get here, because for the specifics, we need to see whether you have completed all the typing before the surgery, whether that has been done thoroughly. You may need other examinations when you arrive.

Investigator: Well, that should be fine. I'll just prepare an approximate amount, I'll prepare a bit more, not less, than actually needed.

Nurse: Eh, about this...there is not a certain (amount).

Investigator: I mean how I shall prepare. I mean If I will go, I should take money with me.

Nurse: No need, no need, no need.

Investigator: Oh. No need for now.

Nurse: Because you need first...well, you need first to...need first to do typing. First...first you need to wait. It is not like you can do the surgery once you come here. You need to wait for our hospital's call when we have a matching organ.

Investigator: Well. That's true. That's ture. Let's put it this way. We would like to spend more money so you can find a younger (donor). Can that be done?

Nurse: Well. I don't know about that. That should be done based on the source...the source. You can ask about it when you come.

Investigator: Oh. We can talk about it later. Talk aobut it then.

Nurse: Yes, right, because I cannot give you a guarantee.

Investigator: Okay. Then tomorrow I will make an appointment to see Xu Jianna or Yu Lixin, right?

Nurse: Uh, you can make an appointment to see...Yu...Director Xu, now it's...currently Director Xu Jian is our department chief.

Investigator: Eh, ah.

Nurse: The one you previously mentioned was our former director. You can no longer make an appointment to see him.

Investigator: Oh, whom should I make an appointment to see then?

Nurse: You can make an appointment to see Director Xu, and that should be fine.

Investigator: Then what about Yu Lixin and Fu Shaojie? Are they all Okay?

Nurse: Um. Right. Right. You can see them too.

Investigator: How many of them? Seven people. They all belong to the same group, right? All of these people are doing it, right?

Nurse: Ah, you can inquire about the specifics when you get here.

Investigator: Ah, okay. That means any of those doocctors can do it, right? All have good skills, right?

Nurse: Ah, right. You can first... Yes. Yes. That's right.

Investigator: Oh. That's good. That's good. Thank you. Okay. Thank you.

Nurse: Okay. No problem. Okay. Bye.

Investigator: Bye bye.

## 追查迫害法轮功国际组织

### World Organization to Investigate the Persecution of Falun Gong

To investigate the criminal conduct of all institutions, organizations, and individuals involved in the persecution of Falun Gong; to bring such investigation, no matter how long it takes, no matter how far and deep we have to search, to full closure; to exercise fundamental principles of humanity; and to restore and uphold justice in society
