Investigator: It's Sichuan Province Academy of Medical Sciences, isn't it? I want to contact your hospital now. Well, our family member has... uremia. The doctor suggested a kidney transplant as soon as possible, replacing the kidney.

Nurse: This...

Investigator: I've...various hospitals

Nurse: For this you... only tomorrow, you can only... tomorrow, you... you... have you registered yet?

Investigator: We have gone to another hospital, and we have the medical file. We are now calling various hospitals to see which hospital has more kidney sources and how long the waiting time will be. Then we will decide which hospital we will go to for the surgery, the kidney transplant surgery.

Nurse: For this you...you ask about it tomorrow during the day, and you should not call us.

Investigator: Oh.

Nurse: **There is a special place for registration.**

Investigator: Okay, now I just want to make sure about something, that is, if your hospital can conduct kidney transplantation, I will register tomorrow.

Nurse: Well, **we can... we are doing this surgery.**

Investigator: Oh.

Nurse: You can register tomorrow. You can ask about it during the day.

Investigator: Yes, I just want to make sure...that is, this Director Yang Hongji... he does kidney transplant surgery, isn't he?

Nurse: Well, **many doctors are doing it.**

Investigator: Ah, many. How many teams are there?

Nurse: Oh, tomorrow, I told you, you can ask about it tomorrow, and there will be someone specially to answer your question tomorrow. We are the ward, and I am the only one here. I am at work. So I hang up now.

Investigator: Okay, alright, okay.
