

Investigation Respondent: Nurse with Zunyi Medical School Affiliated Hospital

Investigation Date: March 1, 2022 (+86- 85128608357)

Summary:

- 1 Our hospital is qualified to do kidney transplants;
- 2 Register to see Liang Guobiao. He is the one that does the best. He is the director of our department;
- 3 There is one team doing it;
- 4 If you have questions, just go register to see him. He is able to tell you a lot...a lot of things;
- 5 Question: He can do more than a hundred cases a year, right? Answer: Yes;
- 6 I don't know how much it will cost.

Investigation Recording

Investigator: It's Zunyi University of Medical Sciences Affiliated Hospital, isn't it?

Nurse: Ah, Urology, Urology.

Investigator: Urology. This is my situation. I am contacting your hospital; I am calling various hospitals. My family member has uremia, his physician recommended a kidney transplant done as soon as possible. I would like to know if your hospital has a lot of people waiting in line?

Nurse: If a lot of people waiting in line?

Investigator: Yes, I want to know for sure if your hospital can do the...kidney transplant first before we go there.

Nurse: Yes, our hospital is qualified for this operation.

Investigator: Alright, then since I've got it confirmed, tomorrow I will.....Okay.

Nurse: For kidney transplant our hospital is qualified.

Investigator: OK. Which doctor should we see? The chief surgeon?

Nurse: Tomorrow morning around 9am...where is the patient?

Investigator: The patient is in Anshun City. Which doctor should we see? Whom should I register to see?

Nurse: Register to see Liang Guobiao.

Investigator: Yang Guobiao?

Nurse: Liang...Liang, as in Mount Liang.

Investigator: Oh, Liang Guobiao? Okay.

Nurse: Right, right, right.

Investigator: Ah, Liang Guobiao, right?

Nurse: Yeah, register to see him. Go see him, and you will be good.

Investigator: Right now, my family member...he's like, he told us to find him a good doctor to do the surgery for him.

Nurse: He is the best at it.

Investigator: How many teams do you have doing it?

Nurse: There's one team doing it.

Investigator: Ah, one team. I am wondering how many cases he can do in a year? The more he does, the better his skill will be, right?

Nurse: Let me tell you this, if you have questions, just go straight to register to see him. He will tell you a lot.....a lot of things, so that you don't need others telling you, okay?

Investigator: Oh, but you know what? If you tell me...it's fine too. So I can tell my family member.

Nurse: You directly.....you directly ask him. Directly...directly register to see him. He will tell you directly.

Investigator: Oh, that's fine too.

Nurse: Now you have checked it out, right?

Investigator: There's not much information online, there's no way to check out how many cases are done in a year or month. Nothing. We just figure the more he does, the better his skill will be.

Nurse: Dr. Liang in our hospital (not clear here) has good skills for sure. He must have the qualifications so that he can perform this surgery, isn't that right? He must be well versed...well versed in this before he can do this surgery.

Investigator: Right. He can do more than one hundred cases, right?

Nurse: right.

Investigator: More than a hundred cases?

Nurse: This I don't.....don't remember clearly.

Investigator: Oh, okay.

Nurse: For specifics you can directly register to see him and ask him, he will give you a clearer explanation. You yourself (this part not clear) more clearly,okay?

Investigator: Alright, okay. I.....have another question, that is, if we do this surgery, how much money should we prepare? You let me know so we have an idea.

Nurse: I am not very clear about how much money.

Investigator: Oh.

Nurse: I am not clear about how much money.

Investigator: Then I'll just see this doctor? Liang Guobiao, right?

Nurse: Right. See Liang Guobiao. Right, right, right.

Investigator: He is the director, right?

Nurse: Our director of the department.

Investigator: Eh, okay, okay, thanks.

Nurse: Alright. You are welcome.
